

**MEDION Home Server,
the perfect solution to**

- Protect
 - Connect
 - Organize
- your digital memories.**

Home Server

MEDION MD 90110 HOME SERVER

Access anything from anywhere

Instead of spreading digital fotos and music on several computers, store them in one central place so the whole family can access them. Even from on the road you can access those data via internet.

Data Security

Windows Home Server comes with an automatic backup function that creates a daily update of up to ten home computers. With those backups you can easily restore the computers in case of a datacrash. Windows Home Server can also mirrow your folders to another harddrive.

Media Streaming

Windows Home Server can stream digital media content via connected PC or streaming clients like DMA or Xbox 360. So you can enjoy your content everywhere in your home.

Easy Setup

Interactive Step by Step Setup. No complicated Server scripts.

MEDION Home Server Features
